You need someone like Akbar Travels. Its 25 years of experience gives it the Confidence to guide you through complex options with unbiased and expert advice and solutions. Akbar Travels, an expert who understand your needs and assists you to reach your final destination with a smile.

Business Challenge

With fast growing Akbar travels has number of branches spread all over India. Their entire business depends on efficiency of the employee and speed, time with which they interact. With huge number of turnarounds it is very difficult to get accurate time sheet of the employees all across. So also manpower handling and monitoring their time sheet was a big task. They are operating in competitive environment and were looking to streamline their process to have accurate recording of staff attendance, late marks and improve on time departure.

Solution Offered and Implemented

Tutis Technologies proposed state of art technology Fingerprint based time attendance system for every branch offices .Tutis Tech has installed Fingerprint Based Biometric Attendance System in all their offices consisting of Tutis Time Attendance Terminal TTA01 and integrated same in Time Attendance software. Terminal .This software has been configured to generate various reports as per their business needs.

Result:-

Currently all Akbar Travel staff utilize the system on .They get a highly accurate time and attendance system that allows them to monitor all reports with people's movement. This has greatly improved work planning and control efficiency, resulting in a higher percentage of on-time departures Staff is able to clock on and off with ease and assurance. The new System is capable of generating

detailed reports. These reports help them to identify key point indicators in workplace efficiencies.
